REPORT.

STUDENTS.

THE number of Pupils in the College during the Session 1851–52 was 719; namely, 422 Students and 297 boys in the Junior School. The Students were, of the Faculty of Medicine 186, 56 being new Students; of the Faculty of Arts and Laws 236, of whom 99 were new Students. The highest number of boys in the Junior School in any one term was 249. In the Patriot Fund Classes for Schoolmasters there were 53 Students. The Students of Analytical Chemistry in the Birkbeck Laboratory were 25. The amount of Receipts from Students was 11,491*l.* 5*s.* 8*d.*, of which 3811*l.* 18*s.* was for the Medical Faculty, viz. for attendance on Classes, 2523*l.* 5*s.*; on Hospital Practice, 1288*l.* 13*s.*: 3377*l.* 7*s.* 8*d.* was on account of the Faculty of Arts and Laws, and 4302*l.* for the Junior School. The share of Professors and Masters, exclusive of the annual augmentations to the Professors of Natural Philosophy and Comparative Anatomy, and of interest of the Patriot Fund to the Professors of the Schoolmasters' Classes, was 7894*l.* 7*s.* 4*d.*; the College portion amounted to 2308*l.* 5*s.* 4*d.* The sum of 1288*l.* 13*s.*, received for Clinical Instruction at the Hospital, was paid to the Hospital Committee towards the support of the Charity.

The entries for the current Session, up to this period, are: Medical Students 158, of whom 41 are new Students; attendants on Hospital Practice 40; Students of the Faculty of Arts 192 (exclusive of 53 Schoolmasters), the new Students being 94. The number of boys in the Junior School in this term is 237.

The Degrees of the University of London taken by Students of the College in the year 1852 were as follows:—LL.D. 1; M.D. 6 (all in the First Division), of a total of 10 from 4 Schools; M.A. 5 of 6, from 2 Colleges; LL.B. 5, of a total of 7 from 3 Colleges; B.M. 5 (4 in the First Division), of a total of 13 from 6 Institutions; B.A. 20 (16 in the First Division), of a total of 49 from 14 Colleges. In all 42, of a total of 86 from 19 Institutions. Of Undergraduates in Medicine, at the First Examination for the Degree of Bachelor of Medicine, of a total of 21 from 9 Schools, 7 (of whom 5 passed in the First Division) were from University College. Two hundred and six Students passed the Matriculation Examination: of these 44 proceeded from private tuition; of the remaining 162 from 43 Schools, 41, including 7 from the Junior School, were from University College.

The Honours obtained by Students of the College at the University Examinations were:—for the Degree of LL.B., the University Law Scholarships by Mr. Francis Guthrie, and Mr. John Hutton Tayler for the Examination in the principles of Legislation; Degree of M.A., the Gold Medal in Mathematics and Natural Philosophy by Mr. Robert B. Batty; Degree of B.M., the University Scholarship and Gold Medal in Surgery by Mr. Joseph Lister; the Degree of B.A., the University Scholarship in Mathematics and Natural Philosophy by Mr. James Savage; the Prize of Books for Chemistry was obtained by Mr. Henry E. Roscoe.

Of Undergraduates in Medicine at the First Examination for the Degree of B.M., Mr. John Z. Laurence obtained the Gold Medal and the second place in Honours for his examination in Anatomy and Physiology; the Gold Medal and the second place in Honours for his examination in Chemistry; and the Gold Medal and the second place in Honours for his examination in Materia Medica and Pharmaceutical Chemistry. Mr. George Buchanan obtained the Gold Medal and the first place in Honours for his examination in Chemistry.

At the Matriculation Examination, the Exhibition in Mathematics and Natural Philosophy was obtained by Mr. Thomas Savage; the Prize of Books for Botany by Mr. William Stanley Jevons.

The Andrews Scholarships of the College for 1852, for Proficiency in Latin, Greek, Mathematics, and Natural Philosophy, were awarded as follows:—The first, 70*l.* to Mr. Thomas Savage; the second, 50*l.* to Mr. Thomas Key. Two other Scholarships of 45*l.* each were offered, but not awarded.

The Fellowes Clinical Medals were conferred as follows:—The Gold Medal for the Winter Term on Mr. St. John Edwards of Bangor, N. Wales; the Gold Medal for the Summer Term on Mr. Joseph Sampson Gamgee of London, and the Silver

Medal on Mr. Thomas Hillier of Newmarket, Gloucestershire. The Longridge Prize for General Proficiency in Medicine and Surgery was awarded to Mr. William Roberts of Bodedern, Anglesea.

The former Pupils of the School who distinguished themselves in the College Examinations and obtained Prizes and Certificates of Honour, were:—Mr. William B. Jones, a Certificate in the Senior Class of Latin; Mr. Henry John Manning, the First Prize in the Junior Class of Latin; Mr. Frederick Hyman Lewis, a Certificate in the Junior Class of Latin and the Prize in the Junior Class of German; Mr. Thomas Key, the Second Prize in the Senior Class of Greek; Mr. John Martineau, a Prize in the Senior Class of Greek; Mr. Frederick H. Robarts, the First Prize in the Junior Class of Greek; Mr. Henry John Manning, the Second Prize; and Mr. Frederick Hyman Lewis, Mr. Edward J. Hayward and Mr. Philip J. Worsley, Certificates in the same Class. Of the two Prizes and seven Certificates of Honour in this Class, all except the last Certificate were awarded to Students who had come up from the School. In French Mr. Berkeley Hill obtained the Second Certificate.

The Students from the School who succeeded in the Class of Mathematics were as follows:—Mr. William B. Jones, Mr. Edward J. Hayward, Mr. Henry W. Southey, Mr. John W. Mellor, and Mr. Thomas Key, obtained Certificates in the Lower Senior Class; Mr. Frederick H. Robarts the First Prize, and Mr. Sedley Taylor and Mr. William S. Jevons Certificates in the Higher Junior Class. Mr. Hayward and Mr. Key obtained Certificates in the Junior Mathematical Class of Natural Philosophy: Mr. Frederick H. Robarts the First Silver Medal, and Mr. William Stanley Jevons the Second Silver Medal in the Class of Chemistry. Mr. Charles Hayward obtained the prizes both for the Fine Art Course and the Construction Course of the second year's Class of Architecture.

PROFESSORSHIPS.

In the course of the last Session the Council appointed Mr. Theodor Goldstücker to the Professorship of Sanscrit, which had remained vacant ever since the death of Professor Rosen in 1837. In consequence of the resignation of Mr. Clough during the vacation, the Chair of English was vacant during the early part of the present Session, but steps were taken for procuring a successor with as little delay as possible, and Mr. David Masson, M.A., of Marischal College, Aberdeen, was appointed to the Chair, and commenced his Course of Lectures on the reopening of the Classes of the Faculty of Arts after the Christmas vacation.

The Council have lately accepted the proposal of Mr. Jacob Waley, M.A. of the University of London, a Fellow of the College, to deliver in the Session 1853–54, as a Teacher in the College, a Course of Lectures on Political Economy. In the Medical Faculty, a new Professorship of Ophthalmic Medicine and Surgery was instituted, and Mr. Wharton Jones, who for two years had held the appointment of Ophthalmic Surgeon at the Hospital, was appointed to the Chair. A Course of Instruction in the application of Bandaging and other Surgical apparatus given at the Hospital by Mr. Marshall, the Assistant-Surgeon, is also a new institution. Mr. Sherard Freeman Statham has been appointed Assistant-Surgeon at the Hospital as successor to Mr. Cadge.

LEGACIES AND DONATIONS.

By the death, in the month of December last, of Mrs. Bacon, the College became entitled in possession to the sum of 10,000*l.* East India Stock, bequeathed by her late husband Peter Bacon, Esq., in the year 1841. On the 12th of February an order was made for the transfer of the Stock from the name of the Accountant-General to that of the College. The value of this Bequest, after payment of the Legacy Duty of 10 per cent., is about 24,150*l.*, according to present price of the Stock.

BEQUEST OF MR. HOLLIER.

In the month of April last the Council received notice that Richard Hollier, Esq., of Greenwich, then lately deceased, had by his Will dated the 5th August

1850, bequeathed the Residue of his personal Estate after the death of his wife to this College, and desired that the same should be applied by the College in founding or in assisting in the foundation of a Greek and Hebrew Scholarship in such way as the Council should think most expedient. The Council have not yet received any exact information respecting the amount of this Bequest.

THE DEATH OF MR. PREVOST.

The Council have to lament the death of Mr. J. L. Prevost, lately a Member of their body, who died at Geneva on the 5th of November 1852. Shortly after that event, the Council received notice from his brother and administrator, Mr. George Prevost, that he had left a letter desiring that a thousand pounds should be presented out of his effects to the Council of the College, and that accordingly he (Mr. George Prevost) for himself and the two other surviving brothers of the deceased had paid the sum of 1000*l.* to the Bankers of the College. The Council were very grateful for this proof of the interest which their late Colleague took in the College, and for the prompt and generous manner in which his wishes had been fulfilled by his brothers. They felt deep sorrow for the early death of Mr. J. L. Prevost, from whom they had reason to hope for a continuance for many years of active and valuable cooperation. During twenty-one years he had rendered most useful services to the College, first as Auditor, four years, and for the rest of the period as Member of Council. The duties of that office, as well as those of a Member and finally of Chairman of the Committee of Management, and of a Member of the Hospital Committee, he discharged with great zeal, assiduity and judgment. His exertions on behalf of the Hospital were earnest and constant, and the Charity is indebted to him, not only for great and persevering attention to the management of its affairs and for his own donations, amounting to upwards of 150*l.*, but for the exercise of his influence in procuring support from others, and many very liberal contributions from his friends. At the solicitation of the Council Mr. George Prevost has allowed his name to be added to the list of Vice-Presidents of the Hospital.

PRACTICAL CHEMISTRY PRIZE.

At the end of last Session the Council received from Alexander Williamson, Esq., Proprietor of this College, the sum of 50*l.* as a Prize for the most successful experimental Research during the present Session by a Student of the Birkbeck Laboratory. Mr. Williamson at the same time intimated his intention to offer prizes of the same amount for the two succeeding years. Regulations for the competition for these prizes and their award have been drawn up by the Senate and approved by the Council.

PRESENTS.

The College is indebted to the Court of Directors of the East India Company for the present of a collection of the samples of the Raw Produce of India, a portion of the Indian specimens sent by the Company to the Exhibition of the Industry of All Nations in 1851. A handsome donation of books, consisting of Williams' English and Sanscrit Dictionary, Johnson's Persian Dictionary, and several more works of value to the Student of Sanscrit and other Oriental Languages, has lately been presented to the College by the Court of Directors.

From the Exhibition of 1851 have also been received five Architectural Models presented to the College by the maker of them, Mr. Richard Day, and now placed in the Library. Other presents for the Libraries and Museums of the College will be referred to in the Appendix to this Report.

FINANCES.

The Receipts applicable to the general purposes of the Establishment, after paying the Professors and Teachers and Scholarships, and satisfying other special purposes, were as follows: the College portion of the fees of Students in the Faculties of Arts and Laws and Junior School was 2309*l.*; and there were also received the following sums, viz. 321*l.* as Dividends of invested funds, 231*l.* Prin-

cipal and Interest, on account of the Legacy of the late Mr. Brundrett, and 28*l.* for the rent of Students' Boxes and for fees on the transfer of Shares, making a total of Receipts on account of the College Fund of 2889*l.* The 321*l.* was the balance of the Dividends of the Holme Fund remaining after the application of a portion to the special objects to which they had been assigned by the Council for the benefit of the Medical School, namely the 250*l.* for procuring special Clinical instruction for Students in Medicine and Surgery, and 100*l.* augmentation allowance to the Professor of Comparative Anatomy. The balance in question was applied towards defraying the general expenses of the Medical School.

The ordinary expenses amounted to 3495*l.*; to this there has to be added 150*l.* for Augmentation allowance to the Professor of Natural Philosophy, not provided for out of special funds, 90*l.* for the Patriot Classes for Schoolmasters, 90*l.* for Flaherty Scholarships, and 35*l.* for Interest on the Loan, making together 3860*l.*; so that the Expenditure of the year exceeded the Receipts by 971*l.*, and as the sum of 214*l.* of the Receipts was part of the principal of a bequest, the excess of Expenditure over ordinary Income amounted to 1185*l.* This deficiency was somewhat less than that of several previous years, and had been anticipated by the Council, who, in their last year's Report, expressed the reasons by which they felt justified in incurring it. They then stated, that acting on the recommendation of a Committee of their body, by whom the condition of the College had been investigated, they deemed it expedient, regarding all circumstances, and particularly the reversionary interests of the College, and the hope that the Finances might gradually improve, to continue the rate of Expenditure on the footing of previous years rather than reduce the efficiency of the Establishment. Events have in a great measure realized the expectations so expressed. The finances and prospects of the College have improved, and a large amount of property, lately Reversionary, is now in possession.

THE UNIVERSITY OF LONDON.

Immediately after the last General Meeting, the Council transmitted to the Secretary of State and to the Senate of the University, the Resolution which was then passed on the Motion of Mr. John R. Quain, on the subject of the admission of Graduates to a recognized position in the Corporate Body of the University; and in the month of November last, the Council, having had under their consideration a Report of a Committee of the Senate of the University printed in the University Minutes of the 16th June, in which Report a scheme for admitting Graduates into the Corporate Body of the University was proposed, transmitted to the Senate a paper of observations by the Council on that Report. Those observations were presented to the Senate at their Meeting on the 1st December, and were printed with the Minutes of the proceedings of the Senate on that day.

MEMORIAL FUND TO SIR ROBERT PEEL.

In the month of June last a proposal was made to the Council by Mr. Hume, M.P. for Montrose, on behalf of a Committee of Contributors to the fund raised by Penny Subscriptions to the Working Men's Memorial to the late Sir Robert Peel, that the College should become the Trustees of the Fund, amounting to 1750*l.*, and apply the Income according to Regulations to be agreed on, in promoting the mental improvement of the labouring classes of the United Kingdom. The Council expressed their readiness to undertake the trust proposed to them, and appointed a Committee of their body, consisting of Mr. Field, Mr. Grote, the late Mr. Prevost, Sir Edward Ryan, Mr. Strutt, and Mr. John Wood, to confer with Mr. Hume and other Gentlemen forming the Committee of the Fund, and to provide for the distribution of the Income on simple principles consistent with the main object, and admitting sufficient powers of varying from time to time the Regulations and Bye-Laws of the Fund. The Committee of the Council have had several meetings, and have conferred on the subject with Mr. Hume and Sir James Graham, and the Draft of a Deed containing a Declaration of Trust of the Fund, and a scheme for the application of the Income in promoting the mental improvement of the labouring classes of the United Kingdom by the purchase and distribution of Books, Maps, and other aids to knowledge, has been prepared, and after discussion has been put into a form in which it will probably meet with the approbation of all parties.

HOSPITAL.

Shortly after the last Annual Meeting, and in time to announce the event by a note to the printed copy of the Report, notice was received that Edward Lombe, Esq., from whom an Annual Subscription of 100*l.* was then reported, had died at Florence on the 1st of March, and that by his Will, dated the 3rd of October 1851, he had bequeathed to the Hospital the residue of his Personal Estate, subject to a life interest in his widow, and had appointed the Baron de Goldsmid, the Treasurer to the Hospital, and Mr. Atkinson, the Secretary to the College, Executors of his Will. The amount of the property realised by the Executors up to this time is 25,790*l.* 3¼ per Cents. They have further to receive a balance of rent due at the testator's decease of Estates in Norfolk, of which he was tenant for life, the value of some property in the French Funds, and the amount of Bankers' Balances, and they expect that these together will produce a further sum of 1500*l.*, and that the total residue will be about 28,000*l.*, subject to Legacy Duty at 10 per Cent.

In the month of June last the Hospital Committee received the Legacy of the late John Helling, Esq. of 200 Guineas free of duty; in September a Legacy of 19 Guineas was paid to them by the Executors of the late Miss Mocatta, and they have received notice of a Legacy of 100*l.* by Miss Pratten. A private collection in aid of the Funds, set on foot in May last, instead of the usual resource of a public Dinner, produced 609*l.*, and on occasion of a Sermon preached on the 31st of October by the Vicar of St. Pancras, the Rev. Thomas Dale, in his Parish Church, the contributions amounted to 100*l.* The Council deem the College to be under great obligation to Mr. Dale for the zeal and ability with which he advocated the cause of the Charity, and for the trouble he took at the request of the Hospital Committee in preparing his Sermon for printing and circulation among his own Parishioners and other inhabitants of the neighbourhood. On the invitation of the Council he has allowed his name to be placed on the list of Vice-Presidents of the Hospital. Considering the improved prospects of the Hospital occasioned by the large Legacy of Mr. Lombe, the Hospital Committee have felt justified in increasing the usefulness of the Charity by a more free admission of In-patients. The Council hope that this readiness to extend the benefits of the Institution will meet with corresponding encouragement from the Public.
